

IDENTYFIKACJA wybranych gatunków PTAKÓW WODNO-BŁOTNYCH

Rozporządzenia Ministra Środowiska z dnia 16 marca 2005 r. w sprawie określenia okresów polowań na zwierzęta łowne

Łowne gatunki ptaków wodno-błotnych:

krzyżówka *Anas platyrhynchos*

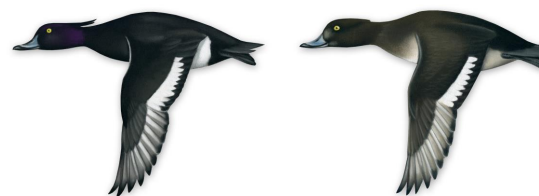

cyraneczka *Anas crecca*

głowienka *Aythya ferina*

czernica *Aythya fuligula*

Rozporządzenia Ministra Środowiska z dnia 16 marca 2005 r. w sprawie określenia okresów polowań na zwierzęta łowne

Łowne gatunki ptaków wodno-błotnych:

łyśka *Fulica atra*

gęgawa *Anser anser*

gęś zbożowa *Anser fabalis*

gęś białoczelną *Anser albifrons*

Rozporządzenia Ministra Środowiska z dnia 16 marca 2005 r. w sprawie określenia okresów polowań na zwierzęta łowne

Okresy polowań na ptactwo wodne:

- krzyżówki, cyraneczki, głowienki i czernice - od dnia 15 sierpnia do dnia 21 grudnia;
- gęsi:
 - zbożowe i białoczelne - od dnia 1 września do dnia 21 grudnia, a na terenie województw: zachodniopomorskiego, lubuskiego, wielkopolskiego i dolnośląskiego - do dnia 31 stycznia,
 - gęgawy - od dnia 1 września do dnia 21 grudnia, a na terenie województw: zachodniopomorskiego, lubuskiego, wielkopolskiego i dolnośląskiego - do dnia 15 stycznia;
- łąski - od dnia 15 sierpnia do dnia 21 grudnia

Gatunki objęte ochroną częściową, na które możliwe jest uzyskanie zezwolenia na odstrzał na terenach stawów hodowlanych (zezwolenie wydawane przez regionalnego dyrektora ochrony środowiska)

kormoran czarny *Phalacrocorax carbo*

czapla siwa *Ardea cinerea*

mewa srebrzysta *Larus argentatus*

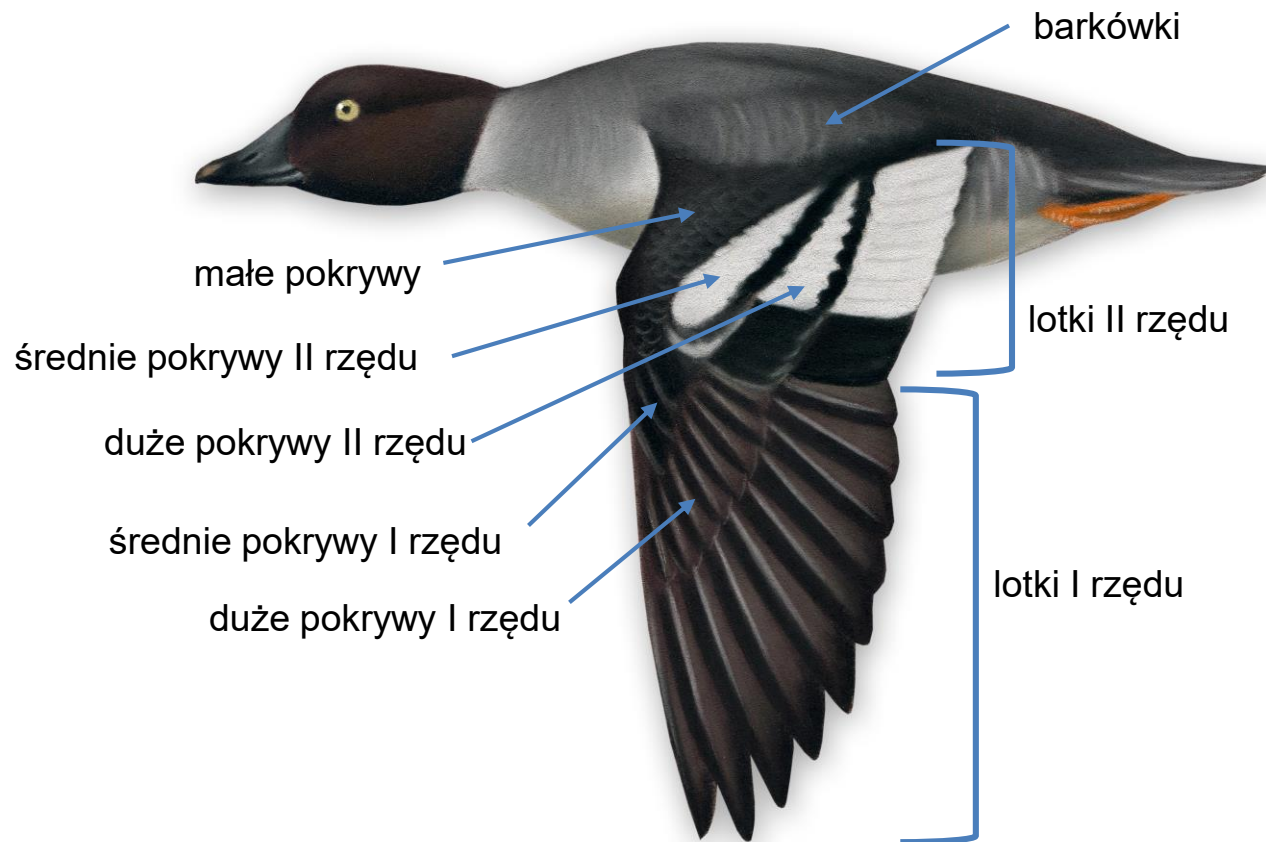

mewa białogłowa *Larus cachinnans*
